

Remarks

I. Status of the Application and Claims

Claim 75 has been cancelled herein. Thus, the claims now pending are claims 60-74.

II. The Amendments

The only amendment made herein was to cancel claim 75. This claim was cancelled because it is the only one that still stands rejected and the other claims are of greater immediate importance to Applicant. Applicant may pursue either claim 75 or claims similar to claim 75 in a divisional application at some point in the future.

The Rejections

On pages 3-4 of the Office Action, claim 75 is rejected as failing to meet the requirements of 35 USC §112, second paragraph. Since Applicants have cancelled claim 75 herein, it is submitted that the rejection is now moot.

Since the Office Action indicates that all other pending claims, *i.e.*, claims 60-74 are allowable, Applicant respectfully submits that all of the Examiner's rejections have been overcome and that the application should now be in condition for allowance.

Conclusion

In light of the considerations above considerations,, Applicants respectfully request that all remaining rejections be withdrawn and that the claims presently pending in the application be allowed. If, in the opinion of the Examiner, a phone call may help to expedite the prosecution of this application, the Examiner is invited to call Applicants' undersigned attorney at (240)683-6165.

Respectfully submitted,

LAW OFFICE OF MICHAEL A. SANZO
